To whom it may concern,

Dr. Salvatore Bellafiore has had a professional relationship with Mercy House for three years. During this time, Dr. Bellafiore has successfully assisted our residents in preparing for and obtaining their GED.

While studying with Dr. Bellafiore, our residents have been reintegrated into the education system, increased their math and reading levels, enrolled in college, and maintained the motivation that is needed to meet their educational goals.

Dr. Bellafiore displays a professional sensitivity to the specific needs of our clients. He is dependable, punctual, prepared, and accommodating. Mercy House considers Dr. Bellafiore an asset to our residents and our agency. Please feel free to contact me with any further questions.

Sincerely,

Laura Pellegrino
House Director
Mercy House
